WHAT'S YOUR **STORY?**

"While working at Maine Medical Center, I decided to pursue my dreams as an aesthetic nurse, and I founded Meg & Co. in 2018. I offered fillers and neurotoxins to start, and my husband Lee and I began to research new, innovative energy-based treatments. I discovered Lutronic and I'm now the proud owner of six wonderful Lutronic devices that enhance my patients' beauty from head to toe!"

Megan Sotiropoulos, RN — Founder, Meg & Co. Medical Aesthetics & Laser

ABOUT

Megan Sotiropoulos, the Meg of Meg & Co, is a Registered Nurse with a Bachelor of Science in Nursing and has been trained in aesthetic medical care by the Aesthetic Medical Educators in Boston.

Passionate about providing cutting edge care, she continues to engage in ongoing education and training to stay up to date on the latest research and treatments within the medical aesthetic industry.

"At Meg & Co., we have the technology and expertise to correct these skin conditions with a variety of safe and powerful aesthetic treatments for your skin. We also offer a wide range of hair services, including body contouring, laser hair removal and hair restoration."

WHAT LED TO YOUR INVESTMENT IN **GENIUS & ULTRA**?

“While exploring options in the laser and radiofrequency world, Genius and Ultra kept popping up, so I connected with my amazing Lutronic sales representative. Upon further investigation, I realized that the incredible results created by these machines would generate a huge new revenue stream.

Months later, I was proud to say I was proven right! Our office is performing between 50-90 Lutronic treatments per week, and the Ultra and Genius have paid for themselves!”

“I discovered Lutronic and I'm now the proud owner of six wonderful Lutronic devices that enhance my patients' beauty from head to toe!”
